

Christian Listener Supported Radio has impacted my life by providing clean, non sexual, pure music. My children had the opportunity to listen to music without being enticed and/or hearing corrupt statements, lyrics. Only positive encouraging information.

to mix this kind of station with that of an LPFM broadcasting station would send a mixed message. Kids are confused enough already.

The local community is effected by learning they are important and do not have to be subjected to obscene wise cracks by d.j.s or to the music that does not offer encouragement but discouragement
